Approval of Budget for Annual Training of Nurses 2015-16

The only item on the agenda of this special Board of Directors meeting is the budget for the annual nurses training.

Nurses' Training

In 2015-16 approximately 100 CBHSSJB nurses will participate in one of two five-day training sessions, a requirement under the FIQ collective agreement.

Participants include nurses who are status 1, 2 and 5, and who are employed at a CMC. Training costs come to approximately \$288,273, although extra travel costs may be incurred as the Cree Nation Government has called for a suspension to all activities in Val d'Or, and the trainings have consequently moved to Montreal.

The BoD voted to approve the budget for nurses training.
